# THE 36CM LIVINGSTONE DESK GLOBE

---

*Colour Ranges, Bases, and  
Optional Customisation*

The 36cm (14 inch) diameter Livingstone Desk Globe is inspired by the traditional Philips globe from the early twentieth century. A classic design where the globe can be spun on an axis.

The map on your globe will always be up to date to the time of making and each and every globe is made bespoke to order and we offer a celestial version as well.

We offer a wide range of colours which are hand painted, or we can work with you on bespoke colouring. Each globe is then paired with a hand turned and hand finished wood base. There is also an option in solid Aluminium.

Our wood bases have hand cast brass pieces which are made using the lost wax method in our Derbyshire foundry and turned wooden washers complete the design.

Your globe can be personalised in many ways, please see the final pages of this document for inspiration and a further explanation.
